INVITATION TO NEUROGASTRO 2025

Dear Partner,

We are delighted to invite you to the ESNM biennial conference NeuroGASTRO 2025, which will take place in London, UK at Queen Mary University, from September 4th to 6th, 2025.

The programme will stand under the motto of “Advancing understanding and management in Neurogastroenterology and Motility”. The NeuroGASTRO conference is the premier forum for researchers and clinicians alike to present their original publications, studies and state-of-the-art findings in the field of Neurogastroenterology and Motility

Invited lectures by leading experts will provide essential updates in this rapidly advancing field. The programme will include a wide array of topics such as brain-gut interactions in health and disease, pain mechanisms, current and future therapeutics, and food intolerance. Diet-based options for the management of gastrointestinal disorders and beyond including prebiotics, probiotics, synbiotics and postbiotics will also be on the agenda. There will be sessions and symposia on the gut microbiota, gut-brain axis, nutrition, eosinophilic esophagitis, gastroparesis, women’s health and sex differences, and the pathophysiology and clinical management of gastrointestinal and neurological disorders. As always, a particular focus will be placed on engagement with young investigators and trainees during specific symposia for these future stars in this field.

Following on from the success of NeuroGastro 2023 in Bucharest, we are expecting a high number of participants from all parts of the world and are hoping for a high level of interest from both pharmaceutical companies and the food industry. London is an extremely attractive city and Queen Mary University of London is one of the oldest colleges of the University of London and, as a member of the Russell Group, is one of the UK’s top universities.

Your participation is vital for a vibrant ESNM conference, and we look forward to having you on board.

ABOUT ESNM

The NeuroGASTRO 2025 will be organised by the European Society of Neurogastroenterology and Motility. ESNM is a non-profit society with the mission to represent the interests of all professionals in Europe and beyond involved in the study of the neurobiology of gastrointestinal function. **Our Mission is:**

- to expand knowledge and interest in the field of neurogastroenterology and motility
- to educate the younger generation of physicians
- to promote scientific and educational events
- to encourage basic and clinical research
- to establish the standards for good clinical practice and patient care.

Reach your target group. Become a partner of NGM 2025!

MAIN TOPICS OF NEUROGASTRO 2025

1. Mechanisms underlying normal and disordered gastrointestinal function.
2. Pain mechanisms and visceral hypersensitivity
3. Role of the microbiome and diet in health and disease: current and future therapies including prebiotics, probiotics, synbiotics and postbiotics
4. Mechanisms and diagnostic techniques in food intolerance
5. Technologies for the assessment of gastrointestinal motility and perception
6. Brain-gut interactions in health and systemic disease including pathophysiology and clinical management of gastrointestinal and neurological disorders
7. Epidemiology of disordered gut function and disorders of gut-brain interaction.
8. Women's Health/Sex differences in Neurogastroenterology and Motility
9. Drugs, bugs and diet: Implications for barrier function and neuroimmunology in the gut-brain axis
10. Artificial intelligence and Machine Learning including computer-aided diagnoses

LONDON

As an ideal venue for our upcoming conference, London offers a blend of rich history, modern infrastructure, and vibrant culture. The city boasts world-class conference facilities, easily accessible via its extensive public transportation network.

Attendees can enjoy a wide range of accommodations, dining, and entertainment options. London's diverse attractions, from iconic landmarks like the Tower of London and Buckingham Palace to renowned museums and theatres, provide ample opportunities for leisure and networking.

Its status as a global hub for business, innovation, and academia makes London a prestigious and dynamic setting for professional events. We are looking forward to meeting you there!

GOOD TO KNOW

UK is a country which includes more than 4,000 members of the British Society of Gastroenterology. The Neurogastroenterology and Motility section comprises a vibrant and enthusiastic cross-section of academics, tertiary specialists, general gastroenterologists, physiologists and trainees.

MEETING VENUE QUEEN MARY UNIVERSITY

Queen Mary University of London is an excellent choice for hosting the next conference of the European Society of Neurogastroenterology and Motility (ESNM):

World-Class Research Facilities: Queen Mary University of London is renowned for its cutting-edge research facilities and strong emphasis on medical and scientific research. The university's state-of-the-art laboratories and resources provide an ideal environment for hosting a high-caliber conference, ensuring attendees have access to the latest technological advancements and research tools in the field of neurogastroenterology and motility.

Strategic Location and Accessibility: Located in the heart of London, the university offers excellent accessibility for both international and domestic attendees. The university is well-connected by major transport links and public transport systems, making it convenient for participants to travel to the conference. Additionally, London's status as a global city provides a wealth of accommodation, dining, and cultural options for attendees to enjoy.

Expert Faculty and Collaborative Environment: Queen Mary University of London boasts a distinguished faculty with expertise in neurogastroenterology, and many related fields. The university's collaborative environment encourages interdisciplinary interaction, fostering innovative discussions and partnerships. Hosting the conference in London will enable participants to engage with leading experts, gain insights from cutting-edge research, and establish valuable professional connections..

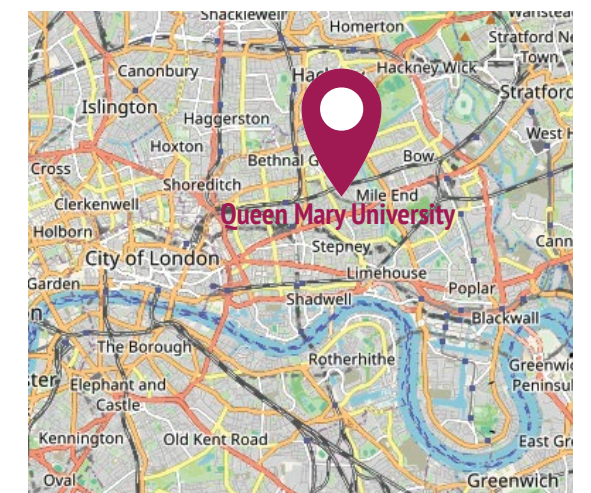

CME – Continuing Medical Education

The ESNM is seeking approval from the European Accreditation Council for Continuing Medical Education (EACCME) to provide CME credits for the scientific programme of the congress. Those credits are recognised by the American Medical Association towards the Physician's Recognition Award (PRA). More detailed information will become available prior to the congress on the congress website:

www.neurogastro2025.org

London offers an array of sight-seeing highlights, easily accessible via its efficient public transportation system, including the Underground and buses. Explore iconic landmarks like the Tower of London, Buckingham Palace, and the Houses of Parliament.
